* Available only on the VetScan i-STAT 1 Analyzer

▶ THREE STEPS TO ACCURATE RESULTS

1) Fill the cartridge to the fill line.

2) Insert cartridge.

3) Read results in 2 minutes.

FEATURES
- Small sample size – 95 µl or less
- Most results in 2 minutes
- Accurate and reliable results
- Low maintenance
- Automatic calibration
- Automated quality control checks
- Ergonomic design, handheld versatility, battery operated
- Stores up to 5,000 tests
- Rapid infrared printing through a convenient mini-printer (optional)
- Integrated barcode reader
- On board glucose strip reader
- Features a Cardiac Troponin I Cartridge

BENEFITS
- Perfect for either the anemic kitten or fractious cat
- Neither your client or you have to wait for results
- Allows you to make quick and confident treatment decisions
- Enhances usability in every clinical situation
- Prior patient results available in the exam room or in the field
- Simple, easy, convenient
- Quick general or emergency assessment with one cartridge
